

Registered exhibitors with reserved space who wish to use their outdoor mobile exhibits to exhibit at (e)revolution can take advantage of this special cost-saving program that will allow them to bring their showroom* onto the show floor in the convention center, set up their exhibit, and be ready for business.
 *subject to approval

Vehicle Spotting Service provides exhibitors with experienced staff that will ensure aisles are clear, give directions and maintain safety watch to ensure that vehicles are moved safely and efficiently.

Vehicle Spotting Costs		Optional Electrical Hookup	
Exhibit Space Size (Square feet)	Roundtrip Cost*	Electrical Service	Cost*
100 – 499	\$350	5 amps or 500 watts Single Outlet	\$120
500 – 1,199	\$450	10 amps or 1000 watts Duplex Box	\$140
1,200 or larger	\$550	20 amps or 2000 watts Quad Box	\$155

*Cost is per vehicle placement.

* For the duration of the show

Roundtrip: vehicle in (setup) and out (breakdown)

Mobile Showroom Criteria for Show Program

A mobile showroom is considered something that the exhibitor can drive into the exhibit hall and be spotted in the assigned exhibited space, such as one of the following:

- Mobile display, concession, or popup store trailer
- Sprinter-style van or similar
- A vehicle with a trailer is permitted as one vehicle.
- Multiple trips/spotting of the same vehicle is not in the spirit of the program, at any price, and is not allowed.
- All spotted vehicles, trailers, etc., must fit within the registered space – nothing outside the space boundaries will be permitted.
- Vehicles with an internal combustion engine staged in the convention center must conform to the Colorado Convention Center requirements detailed in the [Exhibitor Services Manual](#).
- Generators are prohibited inside the Colorado Convention Center – order optional electrical service if the showroom requires electricity.

Modern Expo will have final authority on what qualifies for this program.
